

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Inventor:	John F. Meyer	Examiner:	Ronald Laneau
Serial No.:	09/785,969	Group Art Unit:	3714
Filed:	February 17, 2001	Docket No.:	10004141-1
Title:	METHOD AND APPARATUS FOR ACCESSING AND STORING DIGITAL IMAGES		

REPLY BRIEF

The Examiner's Answer appears to simply re-state verbatim the remarks presented in the final Office Action. Even Section (10) of the Answer, Response to Argument, is a copy of the text from the final Action (including reference to "Applicant's arguments filed 3/10/06" which, of course, were made in response to an earlier non-final Action).

These remarks were addressed in detail in the Appeal Brief. The Examiner does not otherwise respond to the arguments presented in the Appeal Brief. Hence, no further remarks/arguments are presented in this Reply Brief.

Respectfully submitted,

/Steven R. Ormiston/
